New Chiropractic Patient

Thank you for choosing Innovative Health & Wellness Group for your holistic and integrative healthcare needs! Please have this packet filled out and emailed to frontdesk2@evvdc.com **the day before your visit** so the doctor has time to review your health concerns.

When you come in for your appointment, please bring with you:

- A valid driver's license
- A copy of your insurance card

Note: We are collecting your insurance information for laboratory purposes only, so we have your policy on file if your doctor requests laboratory analysis. All other services are cash pay only.

If you have had laboratory testing performed in the last 3 months, please bring that with you to your appointment, as well as any imaging done in the last calendar year.

If you have any questions, please do not hesitate to our friendly front desk staff for clarification!

CANCELLATION AND NO-SHOW POLICIES

At Innovative Health & Wellness Group, we will always strive to deliver the highest standard and efficiency of care. To do this, we need your help! No shows and late cancelations inconvenience the individuals on our wait list who need access to the services rendered in our office in a timely manner. In an effort to reduce such occurrences, we are implementing the following cancellation and no-show policy that is effective immediately as of May 1, 2020.

PLEASE NOTE: due to COVID-19, we are unable to offer returns or refunds on any supplements, oils, or equipment purchased in our office. All sales are final.

We request you give our office 24-hour notice in the event you need to reschedule your appointment. Our office number is 214-972-0302 and our email is frontdesk2@evvdc.com. If an appointment is canceled within 24-hours of your scheduled appointment, a **$30.00 late fee** will be assessed to you. Our office works diligently to collect finalized labs, evaluating the results, and determining supplement recommendations that are personalized to you and your healthcare needs. Because of this, we require 48-hour notice if you need to reschedule lab work or diagnostic consultations. If 48-hour notice is not given, we will need to collect for the time that went into the preparation for that appointment and a **$50.00 fee** will be assessed to you. If you miss an appointment and do not give 24-hour advance notice, a **$50.00 no-show fee** will be assessed to you.

If you are late for an appointment, please know we will see you as soon as possible but your visit may be shortened in length. Additionally, if you are 10 minutes late to your appointment, a **$30.00 late fee** will be assessed to you. Our office makes reminder calls 24 hours before your scheduled appointment, or through text or email that you indicated preferences for on your intake paperwork. *It is ultimately the patient's responsibility to remember their scheduled appointments.*

This fee will be billed to you directly and is not covered by your insurance. If you don't have a future appointment scheduled, this fee will need to be collected in a timely manner and if not, will be subject to collections. We thank you for your support and understanding on this matter, and look forward to serving your healthcare needs in our office.

CHIROPRACTIC TERMS OF ACCEPTANCE

When a patient seeks chiropractic care and we accept a patient for such care, it is essential for both to be working for the same objective.

Chiropractic has only one goal. It is important that each patient understands both the objective and the method that which will be used to attain it. This will prevent any confusion or disappointment.

***Adjustment**: The adjustment is the specific application of forces to facilitate the body's correction of a vertebral subluxation. Our Chiropractic method of correction is by specific adjustments to the spine.*

***Health**: The state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.*

***Vertebral Subluxation**: A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.*

We do not offer the diagnosis or treatment of any disease. We only offer to diagnose either vertebral subluxation complex and/or neuro-musculoskeletal conditions. However, if during the course of a chiropractic spinal examination we encounter unusual finding which are outside the scope of practice for a Doctor of Chiropractic, we will advise you. If you desire advice, diagnosis, or treatment for those findings, we will recommend that you seek the services of another health care provider.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatments prescribed by others. OUR ONLY PRACTICE OBJECTIVE is to eliminate major interference to the expression of the body's innate wisdom. Our only method is the specific adjustment to correct vertebral subluxation. However, we may use other procedures to help your body hold those adjustments.

I, _____ have read and fully understand the above statements.

(Print name)

All questions regarding the doctor's objective pertaining to my care in this office have been answered to my complete satisfaction. Therefore, I accept chiropractic care on this basis.

DISCLOSURE(S) AND INFORMED CONSENT

TO THE PATIENT: You have the right, as a patient, to be informed about your condition and the recommended medical, chiropractic or diagnostic procedure or drug therapy to be used, so that you may make the informed decision whether or not to undergo the procedure or after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you, but recommended to you by us, as your providers.

Details of the diagnostic tests that we run at Innovative Health and Wellness Group are contained in the list at the end of this Disclosure and Informed Consent.

I understand that medical, chiropractic or diagnostic tests or procedure(s) may be necessary or advisable and I voluntarily consent and authorize such tests or procedure(s) as deemed necessary or advisable upon examination. The list of tests and procedure(s) to be performed, and their risk, benefits, is included below, and I have been informed that the risks/hazards of such test or procedure(s).

Just as there may be risks and hazards in continuing my present condition, with or without treatment or procedure(s), there are also risks and hazards related to the performance of medical, chiropractic, or diagnostic procedure(s) planned for me. I realize that common to medical, chiropractic and/or diagnostic procedure(s), is the potential for infection, allergic reaction(s) and, in very rare cases, even death due to severe systemic reaction.

While some of the devices and therapies used at Innovative Health and Wellness Group are thought by our clinical staff to have a positive effect on your condition, no claim is made that any of the devices listed below diagnose or treat any condition unless specifically evaluated and approved by the Food and Drug Administration for that usage.

RISKS ASSOCIATED WITH DIAGNOSTIC AND THERAPEUTIC MODALITIES

As with any healthcare procedure, there are certain complications that may arise during diagnostic procedure(s) and therapeutic intervention(s). The following procedure(s) and intervention(s) may or may not be used in your specific case. The complications are outlined below and include but are not limited to:

RPSS
Risks include pain, skin irritation, muscle spasms or minor electrical burn at the end point of contact

Gaze Stability
Risks for gaze stability exercises include temporary discomfort in the neck, changes to vision, dizziness, nausea, light-headedness, fatigue and headaches

Vibracussor, balance testing, NSI and other Neuromuscular Re-Education
Risks include local soreness, increase in symptoms, fatigue, headache, light-headedness and dizziness; rarely therapy may result in loss of balance with subsequent fall with injury.

OVARD:
Benefits: The patented Off Vertical Axis Rotational Device (OVARD) provides neurological rehabilitation to patients whose lives have been affected by concussions, physiological and neurological disorders, and other conditions that may benefit from brain-based therapy. It targets the vestibular system, which affects balance, spatial orientation and movement. This rotation stimulates the vestibular system to encourage neural activity in parts of the brain that have been affected by illness or injury.
Risks: Include temporary light-headedness, dizziness, nausea, anxiety, headache and malaise. Risks that are uncommonly encountered include fainting, changes to blood pressure and heart rate and death.

Chiropractic Manipulation and Manual Myofascial Therapy:
Reactions that are most commonly reported are local soreness/discomfort and bruising, headaches, fatigue, radiating discomfort, dizziness. The vast majority of the aforementioned conditions will resolved within 48 hours. Rare side effects include: fracture or joint injuries isolated cases with underlying physical defect, deformities or pathologists, muscle and ligament sprain, disc herniations, cauda equina syndrome, compromise of vertebrobasilar artery (i.e stroke).

Cold Laser Therapy:
Benefits: Cold Laser Therapy is a pure from of light energy of a specific color and wavelength that does no increase thermal temperature of what it is contacting. The laser light interacts with tissue causing the occurrence of certain photochemical reactions and stimulating the neural biological process. It is a non-invasive procedure, meaning that it does not require a surgical incision. This means that there is no prolonged recovery time. Laser therapy also does not involve taking any medications, and many patients prefer to avoid taking medications.
Risks: Patients do no typically get full relief or resolution from their pain symptoms after the first treatment. It takes a series of days after treatments, but for most patient this sensation is short term, lasting for a couple of days.

Blood Draw:
The risks of taking blood include discomfort, local bruising, redness and swelling of the vein and the rare risks of fainting and infection.

IV Therapy:
The risks of taking blood and/or IV therapy include discomfort, local bruising, redness and swelling of the vein and the rare risks of fainting and infection. Severe reactions include allergic reaction, anaphylaxis, infection, cardiac arrest and death.

INNOVATIVE
HEALTH & WELLNESS GROUP

EFFECTIVE MAY 1, 2020

CANCELLATION, LATE FEES AND NO-SHOW POLICIES

At Innovative Health & Wellness Group, we will always strive to deliver the highest standard and efficiency of care. To do this, we need your help! No shows and late cancelations inconvenience the individuals on our wait list who need access to the services rendered in our office in a timely manner. In an effort to reduce such occurrences, we are implementing the following cancellation and no-show policy that is effective immediately as of May 1, 2020.

PLEASE NOTE: due to COVID-19, we are unable to offer returns or refunds on any supplements, oils, or equipment purchased in our office. All sales are final.

We request you give our office 24-hour notice in the event you need to reschedule your appointment. Our office number is 214-972-0302 and our email is frontdesk2@evvdc.com. If an appointment is canceled within 24-hours of your scheduled appointment, a **$30.00 late fee** will be assessed to you. Our office works diligently to collect finalized labs, evaluating the results, and determining supplement recommendations that are personalized to you and your healthcare needs. Because of this, we require 48-hour notice if you need to reschedule lab work or diagnostic consultations. If 48-hour notice is not given, we will need to collect for the time that went into the preparation for that appointment and a **$50.00 fee** will be assessed to you. If you miss an appointment and do not give 24-hour advance notice, a **$50.00 no-show fee** will be assessed to you.

If you are late for an appointment, please know we will see you as soon as possible but your visit may be shortened in length. Additionally, if you are 10 minutes late to your appointment, a **$30.00 late fee** will be assessed to you. Our office makes reminder calls 24 hours before your scheduled appointment, or through text or email that you indicated preferences for on your intake paperwork. *It is ultimately the patient's responsibility to remember their scheduled appointments.*

This fee will be billed to you directly and is not covered by your insurance. If you don't have a future appointment scheduled, this fee will need to be collected in a timely manner and if not, will be subject to collections. We thank you for your support and understanding on this matter, and look forward to serving your healthcare needs in our office.
